

There is an old tale about a man who was complaining and very sad because he didn't have any shoes. He kept on asking for shoes, but couldn't get any. One day he met a person whose feet had been cut off. Finally he was grateful and happy.

#### ~ WHO IS SHEIK NAZIM, WHAT IS HIS MISSION ? ~

"The sun will rise in the West!" proclaimed the Prophet Muhammad\*. And so Sheik Nazim was sent to Europe to prepare the people for these new enlightened times. All 'isms' are coming to an end. People are starting to realise that their mind produced systems are not leading them to the happiness and peace they are looking for. The West is yearning for a spiritual sign, for some connection to a reality beyond the never-satisfying materialism.

Maulana Sheik Nazim al Haqqani is such a connection. The wisdom he shares with us is not his own. He is transmitting from a chain of holy people. He is the 40th Sheik in the Golden Chain of the Naqshbandia Tariqat<sup>o</sup>, which leads back to the Prophet Muhammad<sup>o</sup> as the first recipient of Divine Knowledge within this line of succession.

\* It is a custom to show respect and to add, "May peace be upon him," after mentioning the name of a prophet. To avoid a lengthy repetition the \* will symbolise this greeting throughout the text.

<sup>o</sup> see: The Golden Chain of the Tariqat Naqshbandiyya

Sheik Nazim has been coming regularly to London for the Holy Month of Ramadan since 1974. He was given the order to do so by his Sheik, Sheik Abdullah Daghistani, shortly before he passed away. He was told that the Last Days had begun and Truth would once more become apparent, this time coming from the West.

The extraordinary success of Sheik Nazim in bringing Islam back to the hearts of westerners, in the midst of ever-growing official condemnation of this religion, is a clear sign of what his followers continuously experience: his Holiness. We have been told that there are 124 000 Holy People alive all the time. In our days most of them believe. Sheik Nazim too, had a dream of spending the rest of his life in seclusion:

He was born on the 21.4.1922 in Larnaca, Cyprus. Although known to have been a pious child, his complete dedication to a spiritual life did not come until he was in his twenties. He was studying chemistry in Istanbul, when his brother, who was suffering of TB, died in his arms. This changed his whole life. He realised how limited medicine, science and in general this worldly life is, and began his spiritual quest.

His first step was a yearlong seclusion in Aleppo, which he spent in a cellar, praying and eating only 7 times a day. After a year the sheik there told him he had reached such a level, that there was only one sheik who could now help him: Sheik Abdullah Daghistani in Damascus. Sheik Nazim set out at once to meet this sheik and had only one wish, to ask Sheik Abdullah for permission to spend the rest of his life in seclusion at the tomb of Muhammad\* in Medina. Instead, he was sent off to be abundantly surrounded by people, to train them and to be an example

for them, first in Cyprus, then in London. "It is the end of time", he was told, "and particularly people in the West need holy inspiration to illuminate their hearts and lead them out of the abyss of darkness."

#### ~WHAT ARE HOLY PEOPLE?~

For most people in the West, Holy People are something of the past, people engraved in statues or captured on paintings. The presumption of holy people still being alive today in our secularised, positivistic world, almost seems out of time. Yet there are 124 000 Holy People alive all the time. So what are their particulars?

The word 'holy' comes from whole, complete. It signifies a person who has reached wholeness, who is complete in the sense that he is following the Will of the Creator in everything. Allah Almighty has regularly sent down exact recipes of how we can attain holiness: by following His Holy Rules. After all, we were created in His Image, to be His representatives, His caliphs, here on earth.

This is the good news: the Creator did not just dump us here on earth and leave us to ourselves. We were given rules and instructions of how to live in peace: by following His Rules and so fulfilling our purpose here on earth: to return to HIM.

In our days we are filled with the misconception of being free. Of course we have a will to choose between good and evil, this is what characterises us and gives us responsibility. We can choose to lead an evil life by totally ignoring the Holy Instructions our Creator has given us. We must, on the other hand, recognise that for every

disobedience there is a price to pay, either now, or in the hereafter. And the price increases, the longer you wait, the more expensive it will be. Because of this, every person with any sense at all, should strive to do good. It is the mission of every Holy Person, like Sheik Nazim, to teach us precisely that: to be good.

People following a Holy Master like Sheik Nazim, have the advantage of seeing these Holy Laws lived and demonstrated with every move. At the same time, the Holy Energy which emanates from a Holy Person, hits everyone who comes into contact with them straight into the heart. When love has awoken, a follower cannot but magnetically follow such a master, who will lead them out of the chaos of their egotistical desires and back to the source, back to the Creator. That is their task.

Sheik Nazim was once asked how it is possible for Holy People to sometimes be physically at several places at the same time. He described it as a procedure where, once you master every single part of your physical body with your will-power, you can dress your physical body with your spiritual body. Meaning: your spiritual body is then no longer imprisoned in your physical body, instead you pull your spiritual body over the physical. Then physical laws like time and space do not apply anymore and you can fly to Heaven without wings, just using your will-power.

The condition for such powers is, that a person is completely in charge: that the will-power controls, not the desires. A person on such a level is holy and will not act according to their own will, but to His: Thy Will be done.

HEALING, KILL YOUR EGO:

~ EVERLASTING PEACE IS IN YOUR HEART ~

All praises belong to the One Who supports True Ones. One of the greatest attributes of Allah the Almighty is that He only supports trustworthy and true ones. Salan also supports, but he supports the dirty, untrustworthy and dishonest ones. You must know, that if you obey Allah in your actions, He will support you.

So many people come to me and complain about their situation. I can see that they are not getting any Divine Support. If He supports you, things will go smoothly. Anyone who complains must look once more at their habits. They must take a close look at their relationship to their Lord. Like a driver has to look at the engine of his car when it is not functioning properly anymore. When the car stops, there must be something wrong with the engine. It needs a check-up. If you do not find the mistake, it will not move.

People need to check-up their spiritual beings. They need to see how their relationship with their Creator is.

You must find out what is wrong and repent it. In this way Divine Support will come to you. I am praising Allah the Almighty for supporting His true servants and never letting them down. He supports His trustworthy servants because they are inheritors of His prophets. They are always in Divine Service. If anyone wants to improve their situation they must make their Divine Service the priority of their daily lives. This will give you a best relationship with Allah. As long as you put this worldly life first, you are not considered to be true and trustworthy.

It is the most important teaching for mankind. Without that responsibility no one can be respected. In a kingdom, or in an empire, the King and Queen have the highest respect, but they also have the greatest responsibility here and in the hereafter. Whoever has a responsibility will be asked by their Lord how they used it. Governments have much more responsibility than what they are doing today. They think that they only have to organise the economy and take the right tax. That is their main concern. They ask for human rights, but they never think about the rights of the Lord.

We are trying to change the minds of people. We need to make a U-turn, because we are heading towards the most dangerous direction. If we don't turn back, mankind will be destroyed. The day can come when there will be no more London or Paris or any western or oriental civilisation at all. The day can come when everything on this earth will be destroyed and the only remainder will be a laughing satan with his laughing devils.

Governments could make laws for people to obey. With their authority they could stop evil quickly. But they are

not using it which is why Allah the Almighty will punish them. We cannot do anything for our children to save them from the hands of devils as long as we are not supported by the governments. They say that we have to be free. What foolishness is that? In which religion has Allah the Almighty told us to be free? They are under the control of devils and it will destroy them.

The first thing a government must do is Divine Service. Every department of the government must pray and give their highest respect to Allah before anything else. If not, there will be no blessings coming on earth from any direction.

People want to have peace through material aspects. But don't think that richness will bring peace to you. Don't think that jewels will bring you peace. Don't think that beauty or youth will give you peace. One day all that will be gone. The love for anything material will never give you satisfaction, enjoyment, peace or contentment. This you must know. You must ask for valuable aspects from the spiritual world which can never be taken away from you. If you want to have a happy life, feed your spirituality, feed your souls.

#### ~BRILLIANT HEAVENLY CURRENTS OF LIGHT~

There are so many invisible intouchable powers surrounding us from the outside and the inside. If you can reach some of them you will be guided to an Honourable Presence which can take you to His Holy Presence. You can reach it, touch it. If you lose this opportunity, you will be stuck on this earth, unable to move beyond it. There are some occasions in which mankind can reach such currents in their hearts. Which is why it is important for everyone to look after their hearts more than their physical beings. Only hearts can reach a connection with Heavenly Currents which will make you happy here and in the hereafter. This is why the Soul of Prophets\*, the most praised one, Sayyidina Muhammad\* was ordering mankind to take care of their hearts.

Your heart is like a fist, maybe 1/2 or 1 pound of flesh. That is what you can see. There is a real part, without which this flesh would never work. When the power from the real heart starts, you will function. You cannot imagine this engine, which sometimes works for 50, 60, 70, 80 or 90 years without getting tired. Did you think that the heart was doing this on its own? You must be foolish! It is the connection to your real heart which

makes it work according to the time programmed for your existence. When that time is over, it will be taken away.

You must believe in realities beyond the material world. People living in the 20th century only look for the material world. They do not want to look behind it and see the spiritual world, not realising that the material world cannot function without the spiritual world. The spiritual world brings the material world into existence.

When you cut yourself off from the spiritual world your problems will increase and there will be no solutions. Everything will be contrary to what you want them to be. It will not make you happy. Everything will be coming against you. Your desires will make you unhappy. Everything will attack you, harm you and make you unhappy. You will be surrounded by endless sufferings and fall into endless deep oceans of misery.

That is the point which mankind is not being careful about. This is why we need to touch those currents of power which surround ourselves inside and outside throughout our physical and spiritual being. You must use your will power, once, twice or more daily and get in touch. If you do not use your will power you cannot reach it.

Don't think that your natural desires are your will. No! Physical desires which you feel have nothing to do with your will power. Physically you ask for so many things for your physical body. Eating, drinking and sexual desires keep your body alive. This is not your will, animals also have it, but they have no willpower.

Willpower is an honourable attribute which has only been granted to mankind. It is a grant from Allah the Almighty to you, the most honourable one. It has only

been granted to mankind. Even angels did not get it. They have no free will, only you do. Your will can be used to make contacts with Heavenly Currents running around yourself. But most of you don't. You can only achieve such powers by fasting. It is a practice using your free will. This is why it has been a command since the first man for people to fast. All Prophets were told to order their people to fast. By fasting you can come closer to the Currents of Heaven and touch them. A fasting person will be closest just before breaking the fast. If it was not ordered for you to break the fast, you would reach a level on which angels could touch you. But when you start eating you get back to normal. It is a practice and also a training in which you learn how to use your will power.

After this Holy Month you must try not to cut yourself away from Heavenly Beings and Heavens. Try to continue. The most important time in which you can reach these Heavenly Currents is when people are sleeping. Get up, stand in the Divine Presence and ask to reach the Divine Presence. The currents will surround you and bring one hook to take you up. Try it after Holy Ramadan. Don't cut your relationship to Heavens, the spiritual worlds beyond our material world. This is nothing. You belong to the spiritual world, to Heavens.

Finally you will be called to your special station to be there. Try to be there, to reach it. If you are able to within this life you will be a brilliant star in Heavens. If not, a dead star without any lights, becoming smaller and heavier, falling down. Bring yourself up. Don't make yourself heavy by falling into the worlds of darkness. Make your way towards brilliant Heavenly Stations. Don't follow the worlds of darkness. Use your free will,

your will power and you will be happy. You will find happiness running around yourself. You will be swimming in endless oceans of happiness, endless tasteful love oceans, oceans of light. You will be in endless oceans of life which death can never reach. This is an endless grant from Allah the Almighty to you. May Allah grant this to you and forgive us. Ask Him for His Pleasure and you will be happy forever.

### ~LET THE ROCKET IN YOUR BODY FLY~

A religion cannot exist without mysticism, which is what we call sufism. What is the mission of sufism? Religions work within your soul. It moulds your personality to a degree of perfection which allows you to enter Divine Perfection in the hereafter. Every religion and every line of prophecy has sufism within. All religions which were sent down to mankind also contained the methods of sufism. After thousands of years methods were outdated.

Some people tend to think that the change into modern age came with the Renaissance, but the real opening was the revelation of the Last Testament, the Holy Quran. It was only one book which came, but now you can find tens of thousands of books based on that one book. The meanings which can be derived from it are endless. Muhiddin Ibn Arabi wrote more than 500 books, but one lifetime is not enough to understand even one of them, a whole institute would have to study it for years and years. These books are full of solid knowledge. After the Renaissance the Lord granted western people an opening to such Oriental culture.

The Old Testament and the New Testament contain methods for people living 2000 years ago, or even further

back. Those methods are of no use today. They are like factories with old-fashioned machines, not enough. Within this difficult period of stepping from one century to the next, we need stronger methods.

Anyone who is interested to find out anything about their Heavenly Station in Divine Presence can use whichever way they want. But you cannot surpass the gravity of the earth and reach the outer atmosphere with an helicopter. You will need the kind of rockets which Naqshbandis have.

There are Seven Heavens, one on top of each other. They are all enlightened and brilliant. In Islam there are 40 *tariqats*. All of them reach the level of Archangel Gabriel, representing the Level of the Mind. After that station our minds cannot function. Whoever wants to develop spiritually must find someone who is authorised to teach them. Everyone has been granted spiritual powers from their Lord, but most people are not interested in how to use them and die without their jets even having left the runway.

If anyone is interested in the spiritual path, they can find out more. The more they learn, the more they can practise. The more they practise, the more their spiritual awareness will open. Allah grants an opening to everyone who wants to reach Heavenly Stations. It is our duty to ask for such methods. People find out so much about this life. If they are interested in mystic ways they are welcome. You cannot fool me, I recognise whoever is an authorised teacher in this matter. We are reaching the 21st century. The last days of the century are not the same as the first. The first years showed an increasing materialism and athicism. This is now disappearing and

the sun of spiritualism and mysticism is rising. People are fed-up with the philosophy of materialism and atheism. They are vomiting with disgust. They are asking for something which will give them enjoyment and peace within themselves. They see that technology is taking over the activities of mankind to enable them to rest and enjoy themselves, but they are unable to do so. They cannot be in peace. Instead of finding peace they are quarrelling, fighting and destroying each other even more. Why? This huge technology takes away so many heavy burdens from mankind. You can just press a button and cause a gigantic plane to rise. You can press another button and an enormous vessel will start moving through the ocean. You can take a small box in your hand, say "Hello! Are you Elizabeth? Where are you now?"

"I am in Los Angeles."

"What are you doing?"

"I was just sleeping."

This box is incredible! How can it function without a wire connected to it! The *firm* carry the messages from one place to another. But in spite of all this advanced development sufferings and problems are increasing. In this university you are selected, chosen people, which gives you a lot of responsibility. Make a balance between your physical desires and your souls. Don't imprison your souls by only following your physical desires

#### ~HEALING~

By the Name of the Lord of Heavens Who created Adam and Eve and prepared everything for them and their descendants in a perfect way. This life is a test for everyone. The Lord of Heavens tests his servants with goodness and badness, with health and sickness, with richness and poverty and with weakness and strength. He created everything according to His Divine Wisdom with a cure and a solution. Every kind of illness is possible, but He will not create it without a cure. Sadly enough mankind is not taking enough care to find the real medicine for illnesses.

Especially in our days healing is more like a business than a cure. This is why illnesses increase from day to day in their variety. The methods of curing them also increase, but not in a real curing way. Even though thousands of kinds of medicine have been found, they cannot give any benefit to lessen the suffering and pain of people. Maybe they can kill the pain, but they cannot cure.

We know and believe that the first doctors and healers were prophets and holy people. All methods of curing and all medicines came in a Heavenly Way to them before

reaching to us. The materialism of this 20th century has stopped the holy way of curing but we must try to once more start to listen to the advice of Holy Books and Holy People.

We should not only use surgery and knives and cut, or give drugs, kill pain and not cure. We know that the body was created by the Creator and when you open it, it is like an engine. If you open the engine of a car and then close it again it will lose its perfection. That is why every operation surgeons do, leaves an imperfection within the body. It is not a real cure to use knives. The more you avoid operations you gain health. But surgeons are anxious to operate because it is easier for them to cut something away from the body than to cure it. The profit is also much greater: Those are the two main reasons why people come under the knives of surgeons. It is a great pity for all of mankind.

Doctors do not even use the way of normal birth anymore. They rush to cut without a necessity. This is why even something normal like a birth is an excuse for surgeons to make operations. Because of all this a curse is coming on the doctors. People cannot stop suffering and the doctors are unable to give any real cure<sup>1</sup>.

~CURE THE ILLNESS, DON'T JUST KILL THE PAIN~

Turkish Cyprus has a population of about 150 000 people. Last week I read in one of their papers that 1/2 of their budget goes into importing medicine! People are wasting so much. The doctors give too much. The patients use one or two spoons of the bottle, and then they throw it away. With the tablets the same. So much medicine is being wasted. People are becoming more and more impatient. Patients have forgotten how to be patient.

The old medicines had two different effects: they killed the pain and treated the illnesses. Nowadays people only want to kill the pains thinking that when the pain has stopped, the illness is gone too. But sometimes the illness will just fall asleep and then attack you again. It is always better to be patient with pain, but use some cure for the illness. Every illness is a burden. That is why people run to escape from pain.

~WRONG STEPS, RIGHT STEPS~

We must try to correct our steps if they are wrong. Satan was the one who started to step in the wrong direction. People who use wrong steps will be thrown away. Allah the Almighty never lets people go without punishment if they use wrong steps. Divine Justice records and registers everything. If anything is wrong with you, it will be punished. In the same way you will be rewarded for every right step. Allah asks you to step in the right direction. He knows that we are very weak servants. When you feel weak, you must ask for Divine Help.

When Muhammad\* was in the Divine Presence he begged Allah, "Don't leave me in the hands of my ego. It is so powerful and forces me to do wrong steps. Please grant me right steps!" This is what you must ask for. If you do, you will get whatever you ask Allah for, here and in the hereafter.

Once Harun Rashid was with his beloved servants and said to them, "Take whatever you want from here!" It was a huge hall full of treasures. They ran to get what they could. Only one of them got a hold of Harun Rashid and said that he was not interested in anything else but to be with him.

Ask what you want from Allah, but those who are on a perfect level will only ask for Him. Whoever loses the main aim is on a wrong path. The people of the 20th century are very far away from this. They only want this life. They are like cattle content with a little grass. They think that they are civilised, but they have the level of animals, instead of angels. They prefer the toilet to Heavens. When will they start to think about Allah the Almighty and His Divine Presence? May Allah grant us to ask for that which is precious.

~YOUR PROVISION HAS BEEN WRITTEN FOR YOU~

Take that which has been written for you. Don't run after everything else, wanting it for yourself. Before Allah created us, he created our provision. This was 60 000 years ago. Everything was prepared before He sent us here. No one can get that which is written for someone else. Even if you are sitting around a pot of rice, only that which has been written for you on the Day of Division will come to you. Not even one grain of that rice can be taken away from you.

Be happy with that which has been granted to you in your life. Be happy with that which Allah has given to you. Then you will be blessed. If you are ungrateful, you will not be blessed. Don't look at others what they eat, or what they waste. Be happy with your own dry bread

~ONE DROP OF LOVE~

The real target of everyone is to be invited by the Sultan. Allah the Almighty is the One Who can dress you with the dress of the Sultan. If He does that, you belong to Him. He is the One Who can say, "Be!" and it will be. Those who carry the Divine Orders of the Sultan will not be opposed.

How can we reach this point? Allah the Almighty says, "Oh my servant, be fully obedient to me!" Sometimes a person is obedient but he is not happy with it in his heart. Allah does not like anyone to be obedient by force.

One of the greatest Saints was Rabi'a-t-ul Adawia. We call her Rabi'a Sultana, because she was dressed in the robes of the Sultan. She used to address the Lord, "Oh my Lord, I am not coming to You because I am eager to get into Your paradise. I am also not coming to You because I am afraid of hell. I am free of that. I come to You through my love for You. You are the only One I can give myself to with full love. Even if there was no paradise and no hell, I would come to You. You must be praised. You must be respected. You must be obeyed!"

People like these are free. They have been chosen. They do not have anything of this world, or expect anything

from paradise or hells. They have just given themselves for the sake of the Lord. They only want His pleasure, without a gain. They do not ask for the pleasure of their ego, because they know that if their Lord, is happy with them, they will be happy too. They will have absolute peace, love, endless satisfaction and endless pleasure in being with Him.

Muhammad\* was shown every beauty on the Night Journey, but his eyes never looked at anything but His Lord. This showed his real personality. He had completely melted into the presence of the Lord. Rivers run to the oceans. When they reach the ocean they stop running. It is their target to reach the ocean. When a drop of rain reaches the ocean, can you find it? It will be the ocean!

You have been given one drop of love, one drop of existence from the Lord. Try to give it back to the endless ocean of love and existence: the unity oceans of Allah. You will be in the ocean and cannot ever be taken out into loneliness again.

Rabia wanted to reach the Lord. She used to say, "Allah, Allah, Allah, Allah, Allah, Allah, Allah..." but it was very heavy for her ego to do it. It was so anxious to be with Him. But she never gave up. For 7 years she continued, even though every "Allah" was like a mountain on her shoulders. Then she reached a point when her ego left her. She was free to be with her Lord. Her ego had melted and was finished.

#### ~HOW TO BE BLESSED~

There are blessed and cursed servants. Blessed are the ones who are accepted in the Divine Presence. The cursed ones have been thrown away to Iblis. It is up to you which one you belong to. If you do not try to be blessed, satan will catch you quickly to his side and the curse which is on him will come on you too.

It is not important to have a title, to be this or that; Christianity, Judaism, Islam, Buddhism, Brahminism, Confuciusism... You can have any of these titles and still not be a blessed servant. Blessed are the ones who believe that the most important point in their life is to serve the Lord. Those who prefer to serve this world, their ego, or even satan, are cursed. Make the service for the Lord the priority of the day. Start the day with, "*La illaha il la'llah, Muhammadu rasul Allah*" and ask the Lord to help you to serve Him that day. At the end of the day ask to be forgiven and blessed. Ask Him to accept your incomplete service and ask Him to help you to improve the next day. Your first and last thought of the day should concern Him. If someone dies the same night, the intention he had will stay until the Last Day.

~HEART PRODUCTIONS, PURE KNOWLEDGE~

Nowadays nations are fighting within themselves; like Afghanistan, Turkey, Syria, Lebanon, Algeria, Albania, Bosnia... This is one of the small signs which are mentioned of the End of Time. When they are finished, ten big signs will come.

Whenever a teacher gives information he must know where he is getting it from. Every information which has come from Muhammad\* is the pure Truth. No one but the Archangel Gabriel taught him, who brought the knowledge straight from the Lord. He spoke about so many small and big signs of the End of Time.

When Sayyidina Yusuf\* was in prison, two people came to him and told him their dream. It is important to interpret dreams, but not everyone can do it. They must be permitted to give an interpretation. It is not right for people who dream to tell it to someone who does not have this permission, because he can give a wrong meaning, which can then happen. Don't ever tell your dream to anyone but to someone who has been authorized!

Yusuf\* did not give the meanings of the dreams straight away, instead he introduced himself. He said that he was the son of a prophet and the grandson of a great prophet

and made it clear, that whatever he was saying, the Lord had taught him. This showed that he was a person of high rank, and gave them more respect.

The *Sahabas* also used to start by saying that they had seen Muhammad\* do or say this or that. After the *Sahabas*, their followers would say that they had heard it from them. No one would teach and say that it was their own knowledge. Knowledge which comes in this form is pure and available until today. Some still have the meanings of the words from the Holy Book. These are the *ulemas*. Others have learnt it from Muhammad\* and his inheritors and are passing it on. Knowledge is from the mind and heart productions wisdom from the heart.

I am speaking based on what my Grandsheikh is passing on to me. Usually when people speak in front of an audience, they will prepare themselves for weeks even if they only have to speak for half an hour. If they just get out of their text for one short moment, they will lose it. On the way of hearts we give that which people need. We look at the hearts and give.

Ten big signs will appear. We are still in the period of the small signs, although it is nearly coming to an end. There is big trouble in Turkey, people are running to the two extremes: left and right, because they have been left to do as they like. Other governments do everything they can to support their freedom, so that they are prevented from coming back to their religion. They run on the streets proclaiming that they don't want to follow the *Sharia*, even though they don't know what it is. The *Sharia* is the Divine Law. How can anyone say that they don't like it?

### THE SECRETS OF LIFE:

~IF WE DON'T BELIEVE IN GOD, HOW CAN WE BE  
GOOD?~

Young people will carry the responsibility into the new century. It is not only a change from one century to the next, but a change of millenniums which is why it is so important. All nations are making big preparations for this new millennium. They are planning to destroy everything on earth which has been civilised and built for thousands of years.

In this century we had to witness how all the monuments and precious buildings were destroyed by two great wars. I do not think that mankind really want to destroy their homes and their civilisation. There must be something in this world working against humanity which urges people to be enemies and to fight each other, to make wars and to destroy everything materially as well as spiritually here on earth. It is a terrible vision of the future of humanity. If we continue in the same direction in the next millennium, there is no hope for humanity.

You must try to understand how you can protect yourself and your nation against this. We have been created by the Lord of Heavens. Even if Darwin is telling us that we come from monkeys, it is not true. I have never met a monkey which gave birth to a human being, or a mouse giving birth to a cat... Every creature produces its own kind. This is why we believe that human beings all come from one man and one woman. It is what we have been informed of by Prophets and Holy Books and what we believe in. Everything else people try to tell us, are theories, imagination. So maybe we imagine this for awhile. Then after some time we will have another idea and imagine something else. We will then decline our first theory and believe in the next. Our minds always produce new ideas.

This is why we believe in all the Holy Books: the New Testament, the Old Testament, Psalms, Thora and the Holy Quran. They all tell us that man came into existence through Heavenly Creation. We all come from the first couple of man and woman. The root is one, but we have many branches. The Creator created man to be in several kinds. He did not create all men in the same form. They are all different. Everyone represents a special situation.

You are unique in your creation. You cannot find two persons to be the same, even if they are twins. Their thinking and points of view will always be different. We are only guests on this planet for a while. It will not be forever. No one comes here as a permanent guest. We must go. We must know that this earth belongs to all people and we must know and believe that everyone has rights on this planet. The Lord of Heavens put a rule that you must keep your rights as well as the rights of others.

In this century they are telling us about human rights, but they are cheating people. They only mean powerful people. They have rights. Those who are weak and poor don't have any rights. This is a very wrong idea being put into the minds of youngsters. It is why young people try to be much more powerful. They want to be strong and powerful so that the weak ones will be afraid of them. As long as people do not care and do not respect the rights of others, wars will never stop and there cannot be a bright future for humans.

You are learning so much, but I don't think that you have any lessons to teach you anything about such values. Governments want a secular system where they can keep God outside the school. Why? If we don't believe in God, how can we be good? If you don't believe that there is a power beyond us, you will be a terrible creature, wilder than a wolf. This is why we need to have something in our hearts, in our souls.

This is where we differ from any other creatures on earth, Heavens or oceans. There are so many kinds of creatures, but they are not like you. You belong to mankind, and you are number one. You have been honoured more than any other creature and you carry more responsibility than any other. We know that technology kills everything. It kills your mind. It kills your hearts. It kills your physical being. It destroys and harms. It harms everything connected to nature. The oceans are dying. For what? Because people are misusing the power given to them by the Lord of Heavens. We have a mind to think and a will power to decide with.

What are you doing with your will power during the 24 hours of the day? Are you really using your will? Do you

think that when you are eating and drinking and dancing that you are using your will? These are natural desires which are directing you. This has nothing to do with will power. Will power is something far beyond that. It means that you are able to stop your physical desires. We were now fasting for one month. I am now fasting a voluntary fast because it gives power and the personality to develop and to shine.

You will have a brilliant personalities. People with such attributes are like stars, like prophets. They are like suns, like moons, like stars, because they prepared their personalities by using their will power. As long as you are trying to control yourself you will reach a good future. Look around in London how many people are finished. They have completely lost control. They have never practised to use their will power, and when devils tempt them they cannot say, 'No!'. Their lives are ending in a very ugly and disliked way. You are young and there are so many devils around chasing you. Don't be their victim. This is London, in a western country with so many traps for young people. Even the governments cannot help you. You yourself must try to use your will power.

I am a sufi master and in front of me everyone is the same. I am not a fanatic person dividing people into being Protestant, Catholic, Anglican, Orthodox, Muslim, Jewish or Buddhist. No! I am interested in mankind. I am now approaching 80 years and I am travelling far distances. The Lord of Heavens is making me to come and address you now. My heart is full of pity for mankind, because they are being taken the wrong way physically and spiritually. May Allah bless you.

Keep your faith strongly and try to practise your will power and try to be good-ones. You cannot be a good-one as long as you are friends with bad-ones. The most dangerous thing for you is to take bad friends. It harms you and destroys your future. This is the most valuable and precious time in your life. Be careful with it. If not you might suffer your whole life. If you are careful you might still find yourself healthy, wealthy and powerful when you are 80 years old. If not, you will finish quickly.

Reality must appear. This century is full of lies and cheats. It is the century of liars, wolves and foxes. The lions have been taken away, have been shaved, have had their teeth removed and look like monkeys. The wolves are spreading everywhere. They never smile, only when they want to eat you. There are countless wolves everywhere. This is why it is so difficult to save youngsters. But we have hope that the Lord of Heavens will save them.

~THE SECRET OF LIFE~

The spiritual world and the material world are never separated. They are both in one case, just like it is impossible for a nail to be separated from a finger. People who deny spirituality know nothing about mankind or about the reality of life, about the secret of life. We are living beings today, but tomorrow, or next week, or next month, or next year, we might not be alive anymore. When you think about this you have to reach a thought: what was it that made this body move yesterday and not today? What made it live yesterday and not today?

It is the secret of life. There is something hidden which enables people to do every action. Until today no one has been able to see or catch this secret power, the secret of life which gives people energy. No one has ever seen how this secret power gets into the body of the baby in the womb of the mother. No one can catch the escaping secret power of someone who is dying. That secret power is beyond our senses and beyond our knowledge.

Oxford is a huge university-city. What do they say about the life of man? What do they know about that? What do they know about death? Nothing! They are not interested to look into the secret of life and the secret of

death, even though this is the most important point of knowledge. How does a person come to life and how does he come to death? Life and death! All sciences and all the knowledge of mankind stops right there. There is only one source which can explain it: Heavenly Knowledge. Only Heavenly Knowledge can teach us the secret of life, the secret of death and the secret of being human.

Positive knowledge cannot deal with it. It can only experiment and declare. That is all. Positive knowledge has very clear limits, but that is all these huge universities deal with. They are in actual fact preventing the reality of creation and the reality of the Creator who has countless names for Himself. They even say that it is forbidden to mention the name of God in the university. It is forbidden to write the name of God in any book dealing with positive knowledge. They have such strong arguments to prevent it. If any professor would mention God, he would probably be summoned to the head of the university who would tell him to go to a church, to a mosque or to a synagogue with such subjects.

It is understandable that they do not want to deal with Heavenly Knowledge, because it is very difficult to combine it with positive knowledge. Positive knowledge will always be in limits, as it is a mind production. But Heavenly Knowledge is a production of Heavens. It has no limits. Universities should at least admit that they only produce knowledge about how to arrange physical lives. At the same time they should point out that beyond positive knowledge there is so much knowledge which cannot be dealt with using the same methods. They cannot be brought into the circle of positive knowledge. If you try to do it, you will be like someone who wants to

bring the moon from the sky to earth to have a look at it. It is impossible, which why it is a very stupid idea to try to bring Heavenly Knowledge into the area of positive knowledge.

This is the main problem arising between scientists and religious people. It is a never-ending dispute, because the scholars of positive knowledge want to bring the moon down, check it and then give their opinion about it. They want to bring everything into the area of positive knowledge. Beliefs cannot come inside that area because you are dealing with the unseen, which you have to believe in. You cannot reach such knowledge within your physical being. You cannot touch these Heavenly Beings and this Heavenly Knowledge. If you want to bring something into the area of positive knowledge it will be like taking a photograph or a drawing and saying that it is like the original. A photograph cannot be like the person it is portraying. It is only a symbol. You can take a picture of the moon or the sun, but you can still not bring it into the laboratory.

Beliefs are beyond the area of positive knowledge which is why scholars of positive knowledge are fighting against it. They cannot reach it with their methods, so they deny it. But it should not be within their capacity to deny something just because they cannot control it. They can judge subjects within their own area, not beyond. It is one of the biggest mistakes of the 19th century. Since the 17th century scholars of positive knowledge have declared that anything which cannot enter their microscope, does not exist. If they cannot see something, they deny it. It is the greatest stupidity to deny something which you cannot see. Positive knowledge can only find a

drop in the ocean of existing knowledge. Compared to the existing reality you know nothing. You have to find everything in books. This is the lowest level of knowledge. A real scholar should be able to speak without having to look into a book, but our brain cannot carry it. A person can sit down and speak about his knowledge and maybe one, two, three or ten books can be written out of it. Maybe even 100. But there are millions of books that deal with positive knowledge. If you don't know them, you can be considered to be ignorant.

This only concerns the area of positive knowledge. Within every aspect of positive knowledge you can find an exit which leads you to the existence of the Lord, Almighty Allah. Every branch of positive knowledge has to reach the point which will enable people to see the existence of the Creator. We have a saying, telling us that every knowledge takes people to know the real source of that knowledge, which comes from the One. For example, if you use mathematics to its limits, it will lead you to the point of recognising that there is someone who created the huge brain of the ocean of mathematics. If you enter physics, it will be like another ocean and take you to the point of asking yourself, "Where does this huge ocean come from?". This knowledge cannot have been brought from the womb of our mothers. Or take medicine, such a huge ocean! No-one can claim that we have brought all that from the womb of our mother. It has been taken from outside. From where? Our Holy Book tells us, "I have taught first man all this!", and you think you have brought all this knowledge from yourself! From where? If He had not given it to you, even positive knowledge, from where would you have brought it?

It is such an important point, because it shows, that our scholars have to be humble. They have no reason to be proud. If I would ask them to sit down and write what they know, how many book would they be able to fill? Even if they are professors, doctors, or whatever! Where do they take the knowledge from? They are all using preserved knowledge which mankind has been saving for thousands of years.

This conflict has to finish in the second millennium. These realities will have to become known. It must be made public that knowledge comes as a grant from the Creator, from nowhere else.

This is the struggle which religious people always have with people of positive knowledge, and it harns the beliefs of common people who are caught in between. The church will tell them one thing and the university something else. These two must now come together and admit the existence of Heavenly Knowledge which is the seed of our positive knowledge. Every knowledge was first given to our Prophets and to Holy People. But within our last centuries satan has come and separated the two. When the beliefs of people are injured our faith will get weaker and weaker and chaos will increase; first within ourselves, then everywhere else.

We can see that this world is living in its darkest period so far. It is a chaos which no one is able to stop. No one can create peace on earth, because peace can only be established by peaceful people and people nowadays are not in peace individually. How can you then ask for peace? If people are not in peace, how can this country be in peace? You cannot have peace within yourself until your beliefs are strong and the connection with your

spiritual being is in perfection. Then you will be in peace. But our physical body\* is running and imprisoning our spiritual being. So the fight continues between our spiritual being and our material being.

We need a new world and we hope that the coming century will be the best century. I do not think that the new generation will carry the dirty works and lives of their ancestors into the 21st century. We hope that you, youngsters, will be careful not to take the misery, evil and devilish kingdom into the 21st century. This is your responsibility. You must prevent it and put a barrier between good and evil. Give way to goodness and take away badness. May Allah bless you and forgive me.

~A HIDDEN SECRET~

We believe in Holy Books, it is what we base our knowledge on. Everything else is theory without a foundation, usually produced by our imagination. Theories normally do not become realities because they are a production of our minds. This is why that which comes from Holy Books is our reality. It cannot be changed.

Mind productions cannot satisfy our souls. Our souls want something else. They will only be content if we say that the Creator who created everything was a Hidden Secret Who created His servants so that He may be known. He gave us the chance to be honoured through our Divine Service. This is what all Holy Books tell us. It is the purpose of our creation.

The rules of the seen and the unseen world are the same. Everything is aware of their Creator. Atoms know and are praising their Creator, but mankind through his will power has the highest level and can be closest to the Divine Presence. This grant is given to prophets, to Holy People and to love believers. Allah created me so that I can know Him, love Him, glorify Him and give Him my highest respect.

~BEYOND TIME AND SPACE~

If Allah wants to put the whole universe into a thimble, He can. If He wants to put it all into one atom, He can. If He wants He can ask the atom to give up its existence and be like before. It can all be dissolved in His endless power oceans anytime.

There are huge galaxies, which according to reports include billions of stars. Looking at it with the naked eye, it only looks like a spot. But if you were there, this whole universe might even be invisible, because we are smaller than that. You would be invisible, finished, not in existence! When you start approaching it, the world becomes clearer and clearer and by the time you land on it you will disappear.

Everything you see is not in its real position, especially in the sky. It is not the way it appears to be. The moon is not a circle with a diameter of 20 centimetres. That is not the real moon. The real moon is not a circle, but a ball. What you see is not real. If you get closer to it, you will notice. But if you are somewhere else, it will be different.

We are cheated by our vision. If Allah the Almighty wanted to put all stars into one place, He can. If He wants to put the whole universe and all galaxies there too,

He can. That is the greatness of Allah and His power oceans. He can do anything in perfection. If you look at yourself, it is not perfect. When He looks at you He does so in a perfect perfection, nothing is hidden from Him.

It is difficult to speak about the limits of creatures and their connection to Allah the Almighty. No one can understand this connection. He knows them inside and outside, nothing is hidden from Him.

Everyone has been granted physical powers and spiritual powers. What you have been given as physical powers within your physical being is very narrow, but your spirituality is something else. It is beyond time and space.

When people train themselves, they can get out of the prison of time and space. When you are beyond time and space a second can be a billion years without any difficulty. But it is not easy to reach such a position. To be able to you must do exercises and train according to spiritual rules. These should enable you to take your soul from the prison of your physical body and free it into its spiritual world. Until that moment you are imprisoned on earth.

When Allah opens up this ability you can look anywhere in a second of time without any hindrance. The Prophet\* made his *Mirage* which in actual fact was a journey of billions of years, but when he returned, his bed was still warm. Everyone who wants to reach such Heavenly Positions must get help from someone who already has these powers, someone who can be here and there at the same time.

The wisdom people reach there is very different. You cannot find two holy people saying the same things, using

the same words. The wisdom runs from their hearts to their tongues and will give something from the universes to common people. Prophets came from Heaven to be such messengers. This is a deep and terribly dangerous ocean. We cannot move in it. We can only stand on the beach and look. Holy people and prophets can go inside and bring back pearls.

~WHAT IS THIS LIFE ABOUT ? ~

We must ask Allah to protect us. That is what we need. Satan does not bother with those who have left all belief and do not believe in anything. They are already directed by him. That is their way. They think that there is no life after death, no Judgement Day and no eternal life. It is their belief not to believe. This is the deepest ignorance anyone can have. If someone is refusing to use their mind, there is nothing you can do.

Abu Jahil looked at the Prophet\*, but never saw the lights of prophecy in his face. Bilal looked and saw it. Abu Lahab denied it, Bilal declared it. If a person is blind, you cannot give any description to him about the difference of colours. You can say that it is blue, white, black or yellow, but he will not understand. In the same way a spiritual blind person will never be able to understand Divine Messages, Divine Books, Heavenly Commands or Divine Rules.

Those who are blind do not differentiate between their words and the words of the Lord. They think that one book is like the other. They do not have any lights in their eyes to clarify what is what. Some blind people can operate their eyes and begin to see, others are hopeless.

Those who do not believe in Heavenly Messages are either born blind, or have become so afterwards. It is impossible to make them understand.

Ideas are from the mind. We can think something and then change it quickly. Reality cannot be changed. The biggest mistake people make nowadays is to think that Heavenly Messages can be compared with their own ideas. That is impossible. They cannot differentiate between an imitated diamond and a real one. They both look the same, even though one is made of plastic. Only an expert can tell the difference. People are learning from imitated diamonds, not from real ones. This is why, when they look at real diamonds, they still think that their own is more valuable.

The people of the 19th and 20th century all run after imitated diamonds, not real ones. They are cheating and lying. Those who come as leaders for communities are cheating people and telling lies. That is the reality of this century. People do not say the truth. They do not accept the truth. If you ask people to follow you, you must cheat them and tell the opposite of truth. That is the easiest way of making them to follow you. If you tell them the truth, they will run away from you because they like being cheated.

It is the most dangerous egoistic illness: to cheat or to be cheated. It is forbidden for a believer to cheat others. The Prophet\* said that whoever cheats does not belong to his nation. It is forbidden to cheat people and we have been ordered not to be cheated. Allah has given you the Lights of Truth, why don't you use it?

If you have been cheated in this world, it does not mean a thing, but don't be cheated in your beliefs, in your

religion, in your Islam, *Iman* and *Ihsan*. Open your eyes! Islam does not accept people to be drunk. Muslims should not be accused of being ignorant square-headed idiots. People should not be able to cheat us, or at least we should be aware of it.

Wake up, believers! Unbelievers want to cheat you. They want to lead you. They want to destroy your faith, because they are with the devils who represent satan. Their headquarters are in the capitals of Europe, with the people who say that they have reached the top point of civilisation. But they never say the truth because they haven't reached anything. Not only are they not on the top, they are on the lowest level. They cannot separate what is false and what is right, what is bad and what is good, what is real and what is imitated.

Life is a one time chance. No one comes into this life a second time. People who believe that are not dealing with realities. You are given a one time chance to understand something. You will be asked when you leave this life and come into the second life, "Oh servant of the Lord, what did you understand in all those years you lived?" Maybe you lived 20, 25, 30, 40, 50, 60, 80 years... What did you understand in all those years? You travelled for so many years on earth, now you are under earth. What did you understand in all those years? Maybe you will answer, "I was a builder, a doctor, a lawyer, a carpenter, an Imam, a chief of a mental house..." all important titles, but what did you understand? What were you running after? Did it make you understand?

Try to find an answer when you will be asked. The most ignorant people think that we are like grass. But no! We are different than any other creatures.

#### ~NO SHOES BETTER THAN NO FEET~

There is an old tale about a man who was complaining and very sad because he did not have any shoes. He kept on asking for shoes, but could not get any. One day he met a person whose feet had been cut off. Finally he was grateful and happy.

### ~WHY DO WE HAVE HOLY RULES ? ~

Allah wants us to use our energy to praise Him. We should not waste it. It is important for everyone to exist only for Him. It is the top target of our life. Everything belongs to Him. Whatever we do we must be concerned to praise the Lord and show our greatest respect. We must please Him. He is the Only One Who has absolute rights to get every kind of worship, glorification, praise and respect. Only He.

We must live for Allah and we must die for Allah. With every action, thought, movement and silence you must remember that point and be with Allah. If you lose it, you will lose your Lord and end up with your ego which will tell you, that he is your lord and you should obey him. When your ego is your commander it will take away every control from you and make you his servant.

It is the most important rule in Islam not to let your ego control you in any way. This is why the Prophet\* was begging his Lord not to leave him with his ego even for a moment. It will kill you because you will lose your faith to the point of zero. If the Angel of Death comes to such a person, he will die without any faith. This is why every religion practises different ways of serving the Lord. The

first prophet was given some rules for his children so that they would be able to control the dragon of their egos. As time passed on, one prophet after another came, all with the purpose of helping people to control their dragons, their terrible egos. They came to save people

Electricity is a power which can kill you if you don't know how to use it. But mankind knows. If it was out of control, it would kill you. But even so, we need it, because it helps us. The ego is also dangerous, but if under control it can be like *Buraq*. You must learn how to use it. If someone gives you a helicopter but you don't know how to fly it, what is the use? Even if you would be able to fly, where would you go? It is useless if you don't know how to use it. So don't ask why Allah gave us an ego. If it was useless He would not have given us one. It has so much wisdom. It can take you from earth to Heavens. Don't ask why.

The Prophet said that we should not be the same two days in a row. Today must be better than yesterday and tomorrow must be better than today. You must come closer and closer to the Divine Presence of Allah every day. Every day we should be approaching our destination. We don't know which is going to be our last day. The person who understands the real meaning of serving their Lord, of religions and of Heavenly Commands is lucky.

Why do we have Heavenly Rules? To bring us closer to our Lord and far away from our ego. Hell is for those who are with their ego and Paradise for those who are coming closer to Allah, the Almighty. Cursed are those who run away from Him, they are fully heedless. Those who are moving closer and closer every day towards their Lord are blessed.

~DO EVERYTHING WITH THE INTENTION OF  
PLEASEING HIM~

People gather in hundreds and thousands nowadays without their meetings having any value. Here people do not come together for any desires of their physical being. Something in their souls is asking to be here.

Allah looks at our intentions more than at our actions. Actions come alive through our sincerity. Without sincerity our actions will not be alive. Most important in all religions is for people to have good intentions. They should have the intention to make the Lord pleased with them. That is all. All other intentions are useless. Whatever you do, you must do it with the intention to please your Lord. Whoever lives for his Lord is living a real life. Who doesn't, is like an animal and will have a bad smell when he dies. Who lives for his Lord will smell of roses and his face will smile with lights. People who never asked to please their Lord look so horrible once they are dead, that you would not want to look at them.

When you look at bad things it will weaken your memory, just like when you read gravestones in the cemetery, or if you do dirty things, your memory will decrease. Whoever has jealousy will get weaker in mind

and body. This is why you must have the intention with whatever you do; running, sleeping, this, that... to do it with the intention to please Him. I am a teacher, from east to west and north to south. I am teaching from Heavens to all points of the earth.

The 20th century is closing down, and like when a shop closes down, people do not usually want to take their old merchandise into the new shop. They want something new. Everything will be new in the Year 2000. Don't think that devils will be able to take their dirt from this century to the next. No! It is finished! I am asking Allah the Almighty to give me power to prevent satan and his helpers to carry their dirt from this century into the next. It is not only a new century, but a new millennium. We are expecting a Heavenly Appearance. The 20th century is denying everything concerning Heavenly Traditional Knowledge. They are putting it under their feet and bringing satanic technology to destroy everything. We want traditional knowledge.

It is a good sign that there are so many young people here. They are coming to listen to me, even though my English is so poor. When the year 2000 comes, I will try to learn Shakespeare English and La Martine French. In those days we will have the spiritual power to address people in their language. Sayyidina Solomon\* knew all languages, even the language of animals and *Jinn*. When Allah the Almighty opens this spiritual power you will be able to do all that.

We know nothing about our real position and real location within this universe. Universities do not teach real knowledge about ourselves, because if we knew who we are, we would not be able to support any devils.

Anything official destroys faith. Everything which is official will take people away from the Divine Presence. All the Divine Presence asks for is that you are sincere in your Divine Service. In the Divine Presence the Lord made you is Deputy, which you accepted. When officiality comes, sincerity goes. When sincerity comes officiality runs away. Do you think that Prophets were paid by governments?

Look and take care of yourself and beware of the enemies of mankind. Try to be good ones within yourself and try to do your best for others. Take care to please Your Lord daily and to serve Him. Every religion has daily services, not only Sunday services, or Saturday services, but daily! You must keep that so that you are honoured and more and more enlightened.

#### ~REALITY OF VALUES OF LIFE~

A life spent on nonsense things which will be finished when you die, has no value. Don't waste this life on nonsense titles, nonsense properties and nonsense values. All that will stay here when you go into your grave. It is the biggest foolishness of mankind to fight and quarrel about values of no sense. Billions of people are lying underground who have wasted their lives like this. Do you think that if someone gives you a chequebook it will be useful there? In this life a chequebook can make you a king, but in the grave you can have ten of them and it is rubbish. People are running after rubbish.

Everyone has to accept realities. One reality is that we are living and our life will end in the graveyard. Whatever you have collected will be rubbish.

### DEFENDING TRUTH:

#### ~COME TO TRUTH!~

You may belong to any religion, to any school of thought or to any nation, but you must follow Truth. You must accept truth. You must try to learn about Truth. You must try to know what Truth is, try to find out how Truth comes from Heavens to mankind.

Prophets, messengers and their successors, saints, know the Truth. None of them hide anything concerning Truth, because the honour of a person is based on keeping Truth as it is. If someone hides Truth or plays with it, he will be dishonoured, disrespected and thrown out of the Divine Presence. Allah the Almighty granted you Truth from His Divine Presence, absolute Truth, like a virgin. No one can play with it, or hide anything from it. Truth is protected from the hands of devils. If you think that Truth will be in the hands of devils, you are committing a great sin, because the source of Truth is the Divine Presence. It declares that all of us, without making any differences, are servants. You have been created to serve the Divine.

The biggest war is, that our egos will always oppose being servants. Say to the bishop that he is a servant. Tell the pope that he is a servant. Tell Jesus Christ\* that he is a servant. They will be happy. If they are not, they are not on Truth. That is our war. Our egos never accept it: "I am an MP, how can you call me a servant?", "I am a minister, how can you call me a servant?", "I am a king, or a queen, how can you call me a servant?"... Satan cheats people with nonsense titles. This is why when we say the *shahada*, we are saying that we are witnessing the unity and the existence of Allah, that there is no god but Him and that Muhammad\* is His servant and Prophet. Servant hood comes first, then Prophet hood.

Who gave lordship to Jesus Christ\*? Did Allah? Where is it written? He is saying that he is a servant. We must correct so many things. We must come to our real size. We are not only using king-size, but world-wide size. This world cannot carry our sizes, that is how big we are with our nonsense titles. This is why our Prophet says, "Whoever has even less than an atom of pride, cannot enter Paradise!" It is forbidden for proud people to enter Paradise. They go to hell. Whoever accepts to be humble, will find the doors of Paradise open. Whoever has even the smallest pride will be stopped. Everyone wants to find something within themselves to be proud of. Come to yourself, to your servant hood-size and you can enter.

Everyone must accept Truth and be Defenders of Truth. If not, this world will be destroyed, fully destroyed, nothing will be left. Satan and his devils cause our egos to fight each other and make everyone enemies of each others, like two cats. Our egos cause all wars, our dirty egos. Come to Truth and say that you are a servant. You

will find yourself being humble, easy and happy. There will be no more fighting, because you will be simple. Our Prophet\* said that Muslims should be easy, not complicated. But we are like rocks, which is a sign of hell. Come and accept Truth.

We must come to Truth which is like honey, when you put it bees will come from all sides. All religions have declared Truth, only our egos have changed it all. Truth is so simple, it means servant hood, nothing else. Everything else is nonsense and wastes our precious lives.

The Lord is looking at us to see if we are doing the Divine Service He offered us to do. It is our honour to be able to do it. As long as we glorify Him, He will glorify us, He will dress us with blessings, with Divine Lights and He will prepare never-ending honours and blessings within Paradise for us. Don't think that there are only 8 Paradises. There are countless Paradises for those who accept Truth and accept to be His servants and not to fight and not to quarrel. Leave fighting and come to His servant hood, then peace and Divine Support will come.

Don't worry about the weapons of the devils. True ones can stop all that within a second. Satan and his agents are so weak. Don't fear their hydrogen bombs or nuclear bombs, it is nothing. For your honour Allah can order one of His weakest servants to destroy all that within a second. If the secret power with which the nuclear bombs work is taken away, it will all be like toys for children. You have been honoured by being servants. Accept being His servant and you will be happy here and in the hereafter.

#### ~MONARCHIES ARE SUPPORTED BY HEAVENS~

Respect Her Majesty the Queen. We are happy to be here in England. It is a blessed place. Every kingdom is blessed, a republic never can be. This is why I am happy to be here. I ask Allah the Almighty to bless the Queen and her Royal Family, especially His Royal Highness Prince Charles. We support everyone who is trustworthy and asks for the Truth.

All curses come from those who run after devils and give their support to them. Respect and support the true ones. Find them and support them. When the elections come look for the honest and true ones who are supporting Her Majesty. Whoever is against Her Majesty will not be supported by Heavens. Don't think that those who have bad intentions concerning Her Royal Majesty will be successful in the long run. Never! They will never be able to get rid of the monarchy because the monarchy is supported by Heavens.

~THE ONLY ONE~

Who is the Sultan? How must the Sultan be? He must be the greatest one. No one can be greater than him. If anyone is more powerful than him, he couldn't be the Sultan. The Sultan must be fearless. Someone who is afraid of the coming days or anything around him, cannot be a sultan. Who is the Sultan? He is the one who is forever victorious. Who is the Sultan? He is the one who has a never-ending sultanate. Who is the Sultan? The one who has an endless kingdom. A sultan must have these attributes, you cannot find a second one of his kind. The only one is Allah. Who is the Sultan? He is the One whose Will cannot be stopped or prevented. He can create without using anything. That is the real Sultan. He is the One who can make anything into existence immediately by a single word. If He wants to reverse it back into the unseen oceans, He can instantly turn it into nothing.

That is why there is only one Real Sultan. All the others with this title are only imitations. If you are the sultan you are supported by your armies, but the Absolute Sultan does not need to be supported. Everyone wants Him to support them, but He does not need any support from anyone. Our sultans need to be supported by their

armies and nations, but our real Sultan does not need support from anyone for even one second.

The smallest atom as well as the gigantic galaxies would disappear immediately into nothing, if He did not give His Support. All universes could disappear in the shortest unit of time, so quickly that your mind cannot even imagine it. If He takes His support, nothing can be in existence. Do you know of anyone else having such power?

No one can imagine His greatness. No one can imagine His power. He has endless oceans within His endless attributes. No one can imagine an endless ocean. It would be without an ending in all directions and endlessly deep. There would be no limits. It is totally impossible that there is another Lord. He is the Only One. Your logic will tell you that this is the only possibility. You must accept it.

~ SURRENDER TO TRUTH ~

Our *Tariqat* is based on associations with the sheik. When you are with him, come into him, melt within his reality and join him in unity. Through that unity you are in unity with the Prophet\* which will lead you to the Unity Oceans of Allah the Almighty. You will leave your own personality and accept to be nothing.

That is the real sufi method. But in our days everything is misunderstood. People think that when they come to tariqats they have to show themselves more and more, become bigger and bigger and get more and more power. They think that they have to prove themselves. The most distinguished Naqshbandi Order wants to take all that away and make you understand that you are nothing.

A hundred years ago no one of you was present, and in a hundred years you will also not be here. It means we are nothing. Between those two periods of being nothing you also have to accept that you are nothing. Accept this reality. Don't live in imagination.

Your ego doesn't want to disappear in the Unity Ocean of Allah. One drop comes from the sky, when it reaches the ocean it is finished and you will not be able to find it because it became part of the ocean. Even though it

disappeared, it will continue to exist in the Unity Ocean of Allah. The biggest challenge for humans is to accept that they are nothing. They insist on being something. This is why they are quarrelling continuously until they are completely worn out.

The batteries of a tape recorder will be finished one day and thrown away. You have also been given a battery for your physical body. It helps you to be seen in this existence. Those who can reach real Heavenly Power before they die are the real lucky ones. They will never be dust in their tombs, like all prophets and all holy people never turn to dust. Their bodies are as if they were alive, even their blood is circulating.

This is why Allah has sent Heavenly Beings to be amongst people. All prophets and their inheritors have reached Heavenly Power Stations and are offering people such connections. If anyone does, they have to pay. That which you say belongs to you. You might say, "I will give everything except my soul!" But no, you have to give your soul too! When the power within your soul has been arranged, I will put it back.

The Angel Gibril came to Muhammad\* when he was around 7 years old and cut him open. He arranged everything and then left. This was repeated during the *Night Journey*

It is an example for everyone who wants to reach real power from Heavens. They must be operated in their hearts. Not the operation of a surgeon, but a heavenly one. Every inheritor of Muhammad\* needs such an operation. Everyone who has had this done, can then do it to others. These are very rare people. If you ask for them you will reach them. It will be a bit difficult for common

people, but everyone is welcome who asks for it. There was someone called Haji Bayram Wali, a grand sheikh. The Sultan had promised him that he would not take any of his *murids* to serve in the army. Everyone was eager to become his murid. One day the Sultan wanted to put together an army and asked for soldiers. But everyone was telling him that they were murids of the sheikh and did not have to come. So the Sultan sent a message to the sheik asking him what was the meaning of all this: the enemy was ready to attack, but he could not find any soldier to defend the country. The sheik told him not to worry, he was preparing a big army for him.

He placed two tents on a hill and told his murids that everyone should be present. When everyone had arrived the sheik came out of his tent and said, "I have been ordered to sacrifice my murids for the sake of Allah. Whoever is ready to sacrifice his soul, come and surrender to me!"

His murids looked at him in shock, thinking he had lost his mind. They could not believe what they were hearing. Only one person jumped through the crowds and said, "I am willing to sacrifice my soul for the sake of Allah. Take me, cut me, burn me! My soul is in your hands!" Two people with swords took him to the second tent where he was prepared: his feet were tied together and he was placed on a table.

The people outside could only see his tied feet sticking out of the tent. Then, inside the tent they took a sheep and cut off its head. The blood was running out of the tent in a stream and people were horrified, thinking it was the murid. They started to run away while the sheikh was asking if anyone else was ready. Only one woman came

and offered her soul to him, no one else. The grandsheikh then wrote a letter to the Sultan telling him that he only has one and a half murid, and that the Sultan was free to take the rest into his army.

This is what it means to surrender to a sheik, to a prophet and to Allah. When you have no more existence Allah will dress you with your real body, with your real existence which will last forever. *Haggani!*

If you come in front of the grand Sultan with clothes which are not good enough and the Sultan offers to dress you, will you be happy? Allah just wants you to give Him your imitated existence to be able to dress you with your Heavenly Clothes, but people are refusing.

If your ego does not surrender, you will not reach anything. People are very afraid to surrender, even though that is the meaning of being a Muslim. Europeans tremble at the thought. But if you don't surrender to your surgeon, what can he do for you? They want to reach Heavens, but they don't surrender. They want to fly without having to get on board the plane. That is the mind of Europeans. They do not want to surrender. Surrender to your surgeon!

~ PRINCE CHARLES, HERO, DEFENDER OF TRUTH ~

May Allah the Almighty bless Her Majesty the Queen and give her the Divine Present: the most respected belief. Grant her and her Royal Family to be helpers and supporters of Islam.

We are seeing that Her Majesty's son His Royal Highness Prince Charles is always praising Islam. We never hear such praise from Muslim presidents. But Prince Charles, like a hero of Truth, accepts Truth and praises Islam. Whoever praises Islam must undoubtedly have Islam and *Ihsan* and *Iman* in his heart. May Allah bless him and make him this country's Muslim Sultan. Support him with your votes and with your prayers. Ask Allah the Almighty to support him and to put him in power soon so that he may be a Defender of Truth and a Defender of Islam. May Allah give a special protection to His Highness the Prince of Wales and His Royal Family so that he may reach full power as a sultan of the United Kingdom and of other parts of the world. May the King of Kings grant His Divine Support to all sultans. May they all be given their power like before.

~ DEMOCRACY, THE BIGGEST DECEPTION ~

We know that true, clean and honourable people are usually not accepted because the majority of people are dirty. Good people are being defeated. Since the beginning of mankind there are so many sufferings amongst people. Either they have never been given the rights which Allah ordained for them, or it has been taken away from them by force. These are the two reasons. People of Truth are not happy when people suffer. They want everyone to reach their rights. Then we will have peace.

But the devils, who are establishing the kingdom of satan never want common people to have any rights. They only want it for a group of people, not for everyone. They want to be shepherds and the rest to be the flock. A shepherd may do anything he wants with the flock. The flock has no rights except to eat, drink, produce new lambs and get fat for the knife of the butcher. From the beginning until now common people have no rights.

Since the beginning of time mankind have been asking for their rights. Some people suffer a lot, others are satisfied. Until 1779 the governing system was monarchy. When a good person became king, emperor or sultan, the

people were happy. If not, they were unhappy. Throughout the centuries mankind was always trying to get their rights. Devils come and disguise themselves as advisors, just like satan did with Adam in Paradise. But he has only had one interest all along, to take us from Paradise to hell.

He has been repeating this same line with people throughout time. He convinces them that there is a new method in which everyone will be a shepherd, everyone will be governing. The flock doesn't even think whether this is possible, or not, they just follow. When this was introduced in 1779 maybe people could not understand. But now? Do they have complete empty heads? They believe in democracy! It is the biggest fraud. There is a group of people seeing to that one shepherd eats everything. Then they say, "Why should it only be one person? We must form a company called democracy. Instead of having one person on the top, we must have 1000. We must cheat people and tell them that they have elections and that they are deciding." Democracy is a big company of devils. But until today people are not understanding. Electing people! What are you electing? Putting 500 people there and saying that this is power?

People were hoping that this new system would give them their rights. But they quickly recognised that in the time of monarchy they had many more rights, much more mercy and many more blessings. Monarchy had one person, now it is thousands of people. The rights of the masses are diminishing from day to day but they continue to talk about human rights!

These clever French people! They opened their prisons and let their criminals run their country. They killed all

their good people. That was the opening. Because if you do not thank Allah, you will fall down. People were always complaining about their kings, so Allah punished them by giving them something worse. They thought they were getting good days, but it was the opposite. Since then they are removing one king after another, but still not finding what they were looking for.

People continue to ask for human rights. For this purpose they have established the UN in the USA, the place of the biggest lies. They claim to defend and give human rights! Monarchies are gone and the new system democracy never gives anything. Look at Turkey for example. The Prime Minister asked me to come and break the fast with him. Those satanic people, the media, got up and asked why he wanted to invite Holy People? Are those the rights that we have? People are more and more understanding the value of having a king or a sultan. Democracy is finished!

The more people ask for a monarchy, the sooner it will come. Allah is sending the news to our Grandshahs telling us that the monarchy will be back. We are seeing that people are fed up with being cheated. Every nation is now saying that the time has come for their sultans to return. The time has come to ask pardon from them because we did not respect them. In Germany they did an opinion-poll and they found that 60 % want their Kaiser back. After the worst system has fallen, communism, which is even worse than democracy. The people of Russia also want their Tsars. Rumanians want their kings. Even the Serbs want their king back, as well as the Ottomans in Turkey.

~ THE KING OF THE USA ~

For 15 centuries Islam was linked with monarchies. Nowadays it is a new fashion to support democracy, even though there is no such thing within Islam. Democracy gives a chance to every badness. Islam will never accept to give an opportunity for evil to occur. There is no link between democracy and Islam.

When the monarchy left the Ottoman Empire people quickly got a secular system. This shows that Islam cannot function without the monarchy. In 1924 the monarchy left Turkey and so did Islam.

Democracy gives a chance to wolves and protects them within the community. What kind of justice is that? Once upon a time the English people even killed their king, and now they leave dragons to live freely amongst people acting in the worst way. Where is this leading to? Why did they hang their king at the time?

What does it mean that so many dragons, snakes and scorpions are able to live within the community? Why are they given a chance? Is that freedom? In Islam we say that every creature which is harmful must be killed! Only a monarchy can do that. Justice needs to react on a daily basis. Within this system prisoners are being questioned

for months before anything happens. When something happens in a monarchy, people will have their head cut off in front of others. There are wild wolves in the city which run around every night, and harm people. Still the government tells us not to touch them. Is that justice?

This is why we hope that after Her Majesty His Highness Prince Charles will come with full power and restore the monarchy fully.

In the same way the Germans will get their Kaiser back, the Ottoman Sultan is coming, the Libyan is coming, the Egyptian is coming, the Yemenite is coming, the Iranian is coming, the Iraqi is coming, the Syrian is coming, the Russian is coming, the Afghani is coming, the Algerian is coming, the French is coming, the Chinese is coming, the Indian is coming. Even America will have a king, they will be under the rule of His Royal Highness Prince Charles. Insha'Allah.

~ FREEMASONS, PRINCE CHARLES,  
DEFENDERS OF TRUTH ~

If you want to reach your targets easily and safely, use secrecy. Freemasons do everything secretly. Sometimes people find them out, but they are like cats. When cats get kittens, they hide them. If someone finds them, they will hide them in another place. Freemasons are like that. If someone finds out anything about them, they will change all circumstances and when you come again, you will not understand what they are doing.

Their secret power covers the whole world now. All top people are under their command or are one of them. Even if someone is number two in their hierarchy, he will not know what number one is up to. That is how strong their organisation is. The underground people are under their command as well as the people over the ground: governments, education, press, Mafia, armies, economy, banks, schools... They are everywhere! No one can do anything without them. You can do small things, but the big wheel is in their hands, and all small wheels have to follow the big one. They give the order.

This will continue until *Mehdi*\* comes. Israel is under their control, as well as the USA. This country is under

their control and so is Germany, China, Pakistan, Hindistan, Russia, Turkey, Hijaz, Egypt, Libya, east, west, north, south... everything is under their control.

Troubles must continue and as long as Muslims continue to be heedless, it will go on. When Muslims awake, they cannot. That is why they give Muslims valium every day, not just in milligrams, but in grams, so that they will sleep heavily. The courts are under their control. The police, the military, the universities, the old people's homes, youth clubs, golf courses, kings, presidents, sultans... all is under their control.

Their plan is to have total hegemony over the whole world. They have been granted this, but now it is secretly. They are ruling the whole world from the underground. It is not apparent, but when *Dajjal* comes, it will be made clear within 40 days. All the rulers of the whole world will be with *Dajjal* for 40 days. Now they are in control of everything in a hidden way: taxes, telex, computers, satellites... everything! Even temples, churches, synagogues, mosques, religious associations and organisations must be controlled by someone who is with them. Amongst the rulers of the community, one of them have to belong to them. Amongst religious people, one of them must have that power. They will not be passive, but active, and they will move according to their directions. No one can go against their directions.

The stock-market is in their hands, the radio stations, the press... everything is under their control. Fashion is under their control. They dictate what you have to wear, how you sleep, which kind of beds you have, how your kitchen is, how your houses are, how you cut your beard, which hairstyle you have... everything they will tell you

Hippies are under their control. Punk rockers are under their control and so are all discoteques and pop music. They will tell you what to drink. Cigarettes are under their control, wine is under their control, casinos are under their control. The World Bank is under their control. Supermarkets and megamarkets are under their control. Antiques are under their control. Museums and libraries are under their control. Wars are under their control. Parties are under their control. The opposition is under their control. The ruling party is under their control. Everything! If you do not agree to what I am saying, make a research!

Only Prince Charles is fed up with their control and says, "I must be free!". Defenders of Truth are trying to be free from them. There is a growing group of people who are calling themselves 'Defenders of Truth'. Everyone should strive to have this title and to be a Defender of Truth, because if the Defenders of Truth do not come into existence, the sovereignty of evil will continue until the end. But I am hoping that it will be finished by the second millennium.

Every advertisement belongs to them. They do everything to cheat people and to distract them from the right to the wrong direction. When someone wants to go on the right path, they will surround him, cheat him and cause him to go in the opposite direction.

Heedless Muslims are increasing, but we hope it will finish and people will awaken to how satan and his agents are dealing with them in such a horrible way: taking their honour, nobility, precious values and giving worthless things in return. People are leaving diamonds to chase after plastic.

Hormones are under their control. Eating and drinking is under their control. Planting is under their control. Medicine is under their control. Drugs are under their control. Doctors are under their control. Hospitals are under their control.

Their wives are under their control too, because they are sent to doctors to make controls, even though it is *haram*. No one has the right to control except Allah. There is no need to make such controls! But as they are controlling all of mankind, they want to control that too. Ladies are not using their mind, so they go to see what is happening. So what's happening? You are pregnant and will give birth! Starting with the first month these ladies run to the doctor and every month they are put under the scan giving such trouble to the baby, harming it in many ways. So many children are brought to me harmed by the rays of the scan. When it hits their eyes they become blind. When it comes on their ears they become deaf. Some babies have holes in their hearts! Do you think that a car-factory will make a car with a hole in the fuel-box? How can a baby come out of the womb of its mother with a hole in the heart? These people just don't want to consider that these rays can cause such holes! They make operations on babies who are only a week old! For their kidneys, heads, hands, mouth... They are controlling all this and our foolish people are coming under their control. I am very angry with women and their husbands who send their wives to such controls. But no one listens to advice, because the satanic control over them is increasing. They are listening to satan and not to Prophets. The result is that a curse is coming over all nations. May Allah forgive us...

INTERVIEW: RADIO MIDLAND ~  
~ MY MISSION TO COLLECT DEFENDERS OF TRUTH ~

*Q: Sheik Naim, how did you begin?*

This is what new people want to know. They want to know who is speaking. I am a Turkish Cypriot and I lived under British Government as a colony from 1922 until 1940. In the first year of the second war I moved from Cyprus to study chemical engineering at the University of Istanbul. I stayed there for 4 years. I then went to Syria, Aleppo, Damascus and Lebanon and learned *Sharia*. Then I met my Grandsheik, Sheik Abdullah Daghistani of the Naqshbandiyya in Damascus. I was under his training until he passed away in 1973. He then ordered me to be his successor for the most distinguished Naqshbandi Order. Until today I am trying to keep his order as much as possible. I hope it will be a pleasure for me to reach out to people and save as many of them as possible from going in wrong directions and to call them to the right direction.

*Q: Basically you are a chemical engineer. What made you change?*

We believe that everyone has a private destination, but it does not always take a straight line to get there. Sometimes it goes around corners, sometimes it stops, turns... Sometimes there are even U-turns in the life of man. There are reasons, and when Allah wants his servant to reach his destination He will even create a U-turn like He did for me after all those years in Istanbul. Everyone will reach their destiny. Until 1943 my direction was towards *dunya*, but after that I was asked to turn my face towards the Divine Face. They created some reasons, and I turned my face from *dunya* to *maula*.

*Q: What did you feel when you took bayat with your Sheik?*

My destination had already been prepared in Istanbul during my years there. I was expecting to meet some of the *Friends of Allah*, saints. We believe that even if the whole world is empty of saints, there have to be saints in Damascus. That is why I was sent from a saint who was living in Istanbul to continue my training with one living in Damascus. I met my Grand master Sheik Abdullah Daghistani in Damascus. He told me that he had been expecting me to come at that time. My heart told me the same, I too expected to meet him within my spiritual adventure. I knew that all this had been planned for me. It was no surprise.

*Q: Islam is a great religion and people follow it all over the world. What would you say to the whole world in which way we could have the maximum benefit from this religion?*

You know that since the beginning until today all people who are living in this world are on two different opposite ways. They will either be good ones or bad ones: good servants or bad servants. That is why since first man people have been accepting or refusing Heavenly Messages.

It is the same which is going on today too. If a Prophet would come today, don't think that everyone would accept him and follow him. Some will accept him as a messenger of God, witness him and follow his teachings. Others will refuse and not accept.

Since the beginning every Prophet has faced the same problem: common people could not recognise them. No one can control all people now. It is impossible. I am just a small person, less than an atom. How should I be able to control a huge mass of people? What can I do? We can only do a simple work on people who are living in a time of absolute freedom. That is what they are running after. Religions bring discipline, but only very few people want to have that. Islam is a big religion. Do you think that Christianity wasn't, Judaism wasn't, or Hinduism and Buddhism weren't?

People run away from discipline. Devils, agents of satan, make people not to accept any discipline. They are now fighting within the governments to take away laws. Especially young people want to live illegally.

*Q: In these days the whole world, but especially young people, are going astray and are going away from religion. What is your message to them to enable them to become good citizens and good human beings?*

As long as people are captured by their egos, they are enslaved, so there is very little hope for them to allow anyone to come and break their chains, they usually escape. If they would come closer, we could cut their chains. But if a patient is running away from the doctor, what can you do? If they come to really listen, they must leave some of their desires voluntarily.

*Q: What are your teachings, according to Islam?*

We are living in a century where people are saying that there is no God. Atheism has the dominion over the whole world. All governments and educational systems are manifested on atheism and materialism. It means that the sovereignty of satan has been established from north to south and from east to west, in every nation and within every belief. Until we are able to destroy the sultanate of satan we cannot do anything.

Imagine a huge desert with an oasis where there is a spring of water which is only enough for a little greenery. The thousands and thousands of kilometres of desert cannot flourish from that one spring.

In the same way I am only one person. I cannot help the whole desert. Only a handful of people can come and drink and pass through the oasis, but most people will be running through the desert instead. I am not claiming that my impact will be from east to west. I am only trying to sustain a small oasis, no more. Whoever wants to come is welcome!

*Q: You have done so much for the whole world already, what are your future plans?*

To destroy the satanic kingdom!

*Q: Which one is that ?*

It is all over the world... I am asking to get helpers, supporters. I want to have Defenders of Truth beginning with one and then be millions and billions in number, like a snowball coming down the mountain. I am trying to collect Truth Defenders consisting of people who are true-ones. I am looking for people who are true enough to defend Truth. That is my target: to find Truth Defenders and make them into a big mass. To attack the satanic kingdom and to bring it down and to establish the Heavenly Sovereignty on earth.

*Q: Thank you very much!*

We are thanking you, and I hope that through this interview Defenders of Truth will show themselves, reach to me and reach to each other and form a big mass to move the base of satanic sovereignty on earth! That they will destroy it and establish the Heavenly Divine Sovereignty on earth through Heavenly Help and Support! I hope that your broadcasting company 'Excel' will be a Defender of Truth and that you will not broadcast anything in your radio to support the satanic sovereignty but be Defenders of Truth!

~ MAY YOU ALL BE DEFENDERS OF TRUTH ~

We are grateful to Allah that the King of England in the year 2000, Crown prince Charles, will be a Sultan of Islam. He is praising Islam everywhere, much more than our people do. He is on the right path, even though devils are trying to stop him. He knows that people will only get their rights back if they are ruled by Divine Laws. He is brave, because he is from the line of the Prophet\*. He is a Defender of Truth. May you all be Defenders of Truth.

~ BEFORE THE YEAR 2000 ? ~

I cannot say that I will establish the Kingdom of Allah. No! He will establish His Kingdom. His Kingdom is already in power, but He is giving satan a chance to establish his kingdom too, but it is in limits. We hope that until the year 2000 his kingdom will come down. Just like people say that the computers are programmed until the year 2000, no more. For 60 years Grandsheik used to tell me that technology will stop when Mehdi says, "Allahu akbar, Allahu akbar, Allahu akbar!" All the power from the western countries will stop to function. We hope that satan's kingdom will fall down before the year 2000.

~ CIRCLE OF EVIL AROUND EVERY GOOD ONE ~

Every prophet and every saint has a circle of satans around them. You cannot find someone who is following the way of prophets without having enemies. They use so many kinds of enemies pretending to be one of us. Satan uses his agents against all people who are spreading the teachings of prophets.

Allah the Almighty never sent His Deputies to good and perfect people. His prophets were sent when communities were declining, when its inhabitants were becoming slaves of their egos and servants of the devil. When people started making wrong instead of right steps, Allah would send His prophets to correct them, to clean their minds, bodies and hearts: to clean their actions and intentions.

This is the most difficult and dangerous job a person can have, because satan will come and object. Satan is very keen to preserve his kingdom on earth, so he defends it in a serious way. His way of doing that is to attack, because that is the way of winning.

When people try to become good Satan will attack them. He wants to prevent any development of goodness, because it is a threat to his own sultanate. If you want to

do something here, the satan in America will quickly send his agents to destroy it. Wherever a light appears, he will send someone to extinguish it. Now the whole world is in darkness. Even if just a candle is lit, he will rush to blow it out.

This is a place in which we are defending the steps of the Prophet\*. It is the command my Grandsheik\* for me to call people to the right path and to look after them until Mehdi\* comes to clean everything. He will remove everything which has to do with *kufir*, *shirk*, or anything else against Islam, by its roots. It is a command for Naqshbandis to clean people internally, in their hearts.

Whoever comes here must understand our mission. Some people come here and criticise me and the ones who are around me. But they are ill people. If anyone thinks that they can do the job better than I do, they are very welcome to come and take over. Let them teach all these people who come from all directions of the world. Teach them, train them and direct them! Come! They think it is easy. They think all they have to do is to have a mosque and let people pray behind you. They think that is all in Islam. Or to go out and shout. They are fully wrong. They are ill, but they do not want to admit it. They think they are above Heavens, but they are less than underground, because some of the animals there are at least clean. They are part of the sewage system. They accuse people and put themselves in an exceptional position.

This is a centre which Allah has put in a country where there are headquarters of satan. It is a secret kingdom, not the official United Kingdom. The centre here could not be in a more suitable location than in London, the

This is a place in which we are defending the steps of the Prophet\*. It is the command my Grandsheikh\* for me to call people to the right path and to look after them until Mehdi\* comes to clean everything. He will remove everything which has to do with *kufir*, *shirk*, or anything else against Islam, by its roots. It is a command for Naqshbandis to clean people internally, in their hearts.

Whoever comes here must understand our mission. Some people come here and criticise me and the ones who are around me. But they are ill people. If anyone thinks that they can do the job better than I do, they are very welcome to come and take over. Let them teach all these people who come from all directions of the world. Teach them, train them and direct them! Come! They think it is easy. They think all they have to do is to have a mosque and let people pray behind you. They think that is all in Islam. Or to go out and shout. They are fully wrong. They are ill, but they do not want to admit it. They think they are above Heavens, but they are less than underground, because some of the animals there are at least clean. They are part of the sewage system. They accuse people and put themselves in an exceptional position.

This is a centre which Allah has put in a country where there are headquarters of satan. It is a secret kingdom, not the official United Kingdom. The centre here could not be in a more suitable location than in London, the

headquarters of satan. We could mention America, but they are learning from here Germans are learning from here and so are the French and the Russians. The Greeks, Turks, Arabs... all come here to learn. The Jews are the professors, they do not have to learn.

Allah has put his weakest servant here in London. The satans know very well who I am and they are trying to destroy these gatherings. They do everything to go against me. Even my own people come to criticise me. They say that I am not taking care of what is happening here. If anyone thinks that they can do the job, let them come! But they must write, 'Mental House' at the door. Then no one here will be criticised anymore. Because this is a mental house.

If anyone thinks that they are perfect in their mind and in their actions, they should not come here. Those who think that something could still be wrong with them are welcome. Welcome to our mental house! We don't need people who are unhappy here. There are enough satanic houses waiting in this huge city for them. You can join any group of thinkers there.

If you are happy, welcome! Don't criticise this place. It is a mental house and people from a mental house must be trained and be happy with their training and try to take away their egoistic characteristics. We do not promise people anything else than to take away satan from their ego, to be free from their ego. Whoever is not happy, because satan is blowing into them so much that they resemble a balloon, may go to him. My aim is to put your ego on the level of zero, to kill it. Then it will not be able to command you, or to control your soul! That is our job. Those who are happy with this, welcome!

May Allah forgive and correct our steps through his *aulhas*. I am ashamed to tell Allah what to do, I am asking Him humbly to send us His servants to clean us and to bring satan down.

This is not advice for common people. They are already very humble. But those who have degrees think that they are someone, just because of their education. Satan blows through them. We are not playing with people, but are showing their egos the way they are. These people think that they are important, VIPs. You cannot be a VIP if you still have an ego, you belong to the people of the sewage. Don't let your ego control you. If it does, it will call satan and both of them will control you.

Please use your spiritual power to give me support. People come like the waves of the ocean to attack me wherever I go. I hope that Holy People will support me. May the spiritual support give more and more power to take away evil and devils.

I am declaring to be the one whose intention it is not to leave evil or any devils on earth. This is why devils are chasing me.

This is a peaceful place, not official like the Central Mosque. It is a centre for Islam and Iman and Ihsau. People like the atmosphere because it is blessed. But don't think that everyone who comes here has good intentions. Beware of them. Don't be cheated. All prophets fought against satan and his agents. This will continue until the time when Mehdi\* will come. When Jesus\* comes it will be completed and everything belonging to satan will be ended. There will be absolute peace on earth.

~ THE CIRCLE OF THE WORLD ~

The chance which has been given to devils will end before the beginning of the next century. It must be destroyed by then. After the year 2000 there will be no more tyrants, devils, Mafia or any bad people. Those who are cheating mankind will not have the chance to be alive.

The circle of the world brings different people to the top in different times; some come down, others go up. Until recently tyrants and all their bad followers have been climbing up. When they reached the top point they were so happy, thinking they would stay there forever. They are unaware of the Divine Wisdom of change: that they will come down again. We have reached the lowest point and are now on our way up to bring the moon back to the top, while they are declining. Even though they insist on staying there, they will have to come down. We don't even have to do anything to make it happen, the Divine Will is bringing them down. Until the end of this century they will come to the lowest point.

Even if you do not belong to the chosen true ones, you must try to be with them. Allah knows that we are usually weak, which is why He orders us to be with them. It is difficult to be one of them, but we must try to be with

them. They are the ones who have kept their promise to be with Him since the Day of Promises. They never follow their ego, they never follow satan and they are never slaves of their ego. Because He knows how hard this is, He is not expecting everyone to be able to do it, but He wants us to be with those who do.

Don't be on the side of those who are denying religion and denying Islam, or on the side of those who are not making *sajda*, or who are drinking.

But instead of listening to His Advice, we usually do the opposite.

The next century will only be for True Ones. It will start with the coming of Jesus\*. No one can change that. He will follow the Sharia of Muhammad\* and for 40 years this world will be like Paradise: with justice, respect, worshipping, love, mercy, blessings, lights... All nations begged to reach that period and so do we. I don't know. Since I was young I have been asking Allah the Almighty to give me a chance to be with those True Ones.

# GLOSSARY:

*aulia*: Holy People  
*bayat*: oath of allegiance  
*Buraq*: the white horse which took Muhammad\* through the seven hells and Seven Heavens to the Throne of the Creator on his *Night Journey*, also called *Mirage*.  
*Dajjal*: the Anti Christ (see: *Mehdi*)  
*dunya*: this worldly life  
*Friends of Allah*: Holy People  
*hadith*: a description of the detailed behaviour of the Prophet\* in everyday situations. These are taken as guidelines for good manners. A *hadith* is only considered to be legally valid if a precise chain of transmission has been recorded.  
*Haqqani*: the Truthful One, from *haqq*, reality  
*haram*: forbidden  
*Ihsan*: perfection of faith  
*Iman*: faith  
*jinn*: beings made of smokeless fire who inhabit the earth with us. They are like humans: they can be good or evil and have responsibility because they have been given will-power. They too will be present on Judgement Day. The Quran addresses them too. They are made of different materials than we are, but we live on the same planet, so it is important to know how not to annoy them unnecessarily. Their influence can be noticed in the energy surrounding us. If we are not in unity with the Creator and do not comply to His Rules, they will enforce the feeling of fear. If we are in unity, the presence of the *jinn* can only enforce this reality and we will

be even more in unity. Some people are more on the level of *jinn* and more likely to get into contact with them. For them it is very vital to follow every means of protection, to say *bismillah* before any action, to have *wudu* at all times and to be careful not to cut nails or hair after sunset. When you cut them, always either burn or bury them in soil, a flower pot will do. Otherwise you invite the *jinn* to put spells on you. Avoid housework connected to water after sunset, as this is the time most *jinn* are awake. Water has the same reaction on their fire-bodies as fire on ours.

*kufr*: covering up the Truth, not believing in the Truth.

'*La ila'ha il la'llah, Muhammadu resul Allah*': 'No there is no God except Allah, and Muhammad is Allah's Messenger.' The testification of faith.

*marla*: the hereafter

*Mehdi*: the rightly-guided one. The one who at the end of time will lead people to the good side and prepare for the coming of Jesus\*. Before his coming there will be Armageddon, the last great war. It will last for 3 months after which *Mehdi* will come. But with him the Anti-Christ, the manifestation of evil, will also appear. For 40 days the 2 of them will roam the earth and everyone will have to choose sides. As the Anti-Christ will use all means to cheat people, he will appear as charming and perform many 'miracles' like waking up the dead, but in fact it is the darkest black magic. Because of this most people, about 6/7 of the world population, will follow him and not recognise the real one, *Mehdi*.

When this division has been completed, Jesus\* will return. He will first come down from Heavens to Damascus, to the tomb of John the Baptist\*. He will then go to Istanbul and get the flag of Muhammad\*, which is kept there at the Topkapı Museum. With this he will rush to Megiddo, the plains south of Nazareth, today Israel. Here he will kill the Anti-Christ. When the Anti-Christ dies, all his followers will go with him

and the 40-year-long rule of complete peace on earth, with Jesus\* as the King, will begin. Insha' Allah...

*Miraj*: see: *Buraq*

*murid*: a disciple, a follower of a *Tariqat*.

*Naqshbandiyya Tariqat*: 'tariqat' is the path in Arabic. Sufis, the mystics in Islam, use these 'ways to Heaven' by being taught mystical practices by their sheiks. Originally there were 42 *tariqats*, but the *hadith* has foretold, that at the end of time, these will all dissolve but one, which will unite all *tariqats* under *Mehdi*. It is essential that all these *tariqats* have a continuous line of succession leading back to Muhammad\*. In the case of the *Naqshbandia Tariqat*, Sheik Nazim is the 40th Sheik in this chain (see: the Golden Chain of the Naqshbandia Tariqat). We believe him to be the last one in this line of succession before *Mehdi*.

*Night Journey*: see: *Buraq*

*sahabas*: the companions of Muhammad\*

*shahada*: testimony of faith (see: *la illa'ha...*)

*Sharia*: the Sacred Law of Islamic jurisprudence. It is based on the Quran and the *hadith*, and is the guideline for every Muslim's conduct, individually and collectively. There are four schools of thought: the Hanafi, Hanbali, Maliki and Shafi'i, which vary only slightly in their interpretation. The Islamic legal system can be summarised as follows: everything is allowed, except that which Allah has prohibited. No human being has the right to change this. The authority to say what is allowed and what is prohibited belongs to Allah alone.

*tariqat*: see: *Naqshbandiyya Tariqat*

*tesbih*: rosary, praying beads

*ulema*: learned scholars
